PISA Patients:

Important Insurance Update for 2026

As we begin the new year, we want to ensure that every patient continues to receive smooth, uninterrupted care at our office. Many insurance carriers renew or adjust their plans at the start of the year, and even small changes—such as a new policy number, updated copays, or new authorization requirements—can affect your coverage.

Did you change your insurance plan or policy for 2026?

If so, please inform us as soon as possible. Providing your updated insurance information **before your next appointment** helps us verify your benefits, understand any new requirements, and reduce the risk of unexpected out-of-pocket costs.

Please keep in mind:

- **Bringing a new insurance card on the day of your appointment may result in delays.** Verification can take additional time, and some plans require prior authorization before services can be covered.
- **Updating your information early ensures smoother check-in and accurate billing** and helps us secure any authorizations that may be needed in advance.
-

If you have any questions about your coverage or need to update your insurance information, our team is here to help.

Please call us at **520-318-6035**, and we will be happy to assist you.

Thank you for helping us serve you better and thank you for being part of our patient community. We look forward to continuing your care in 2026.
